

APP:

https://studio.code.org/projects/applab/i2U6a84iwt9UnmKsBS3XxVn0LukZV9I_9gvwErM3hcc

The app project is doing this weird thing that wont let me share the link. It's said I violated terms of service, but I have no idea how I did that. Actually after reading the terms of service, I think it's because I published it on a non-public account so it wont let me share the link. I have no idea, and I cant reverse it. The second link isn't doing that.. So I hope it works.. I'll try to attach a video anyways of my work in hopes to receive credit. I just don't know why it's doing that, they said that if this is an error to email them..which I did. I think it's just a weird error after I clicked that publish button..

GAME:

https://studio.code.org/projects/gamelab/M8tMV_mxPdaIRMNIKxx6u-YzPJxidzbD6xke41a4SI

With the game I changed it a little bit, my friends taught me how to make a ping pong game. It was pretty fun and a lot of work.. I still hope it meets the requirements. There's two characters: paddle and doughnut.. And I changed the background and made them interact. Please let me know if it's okay still.

Kahoot:
